

Cambridge[®]
SCHOOLS

Cambridge Schools are so excited to announce our Mommy and Me™ Programs partnership with Kindermusik®.

Kindermusik® International is an established community of educators passionately committed to bringing the power of music education to children and their families around the world. Since 1978, their research-based music-and-movement curricula have enhanced the lives of millions through the universal language of music, supporting whole-child development.

Kindermusik® helps develop critical early-learning skills, nurtures the whole child, and—last, but not least—offers hours and hours of irresistibly engaging music-and-movement fun for babies, toddlers, preschoolers, and their families!

Angela Tuck will be leading the **Kindermusik®** classes. She is a trained and licensed local **Kindermusik® Educator** and earned her Bachelor's Degree in Music.

The following classes will begin in September: CUDDLE and BOUNCE for babies ages **1-12** months and **SING and PLAY** for little ones ages **12-24** months.

These enriching classes are designed to help build important developmental skills, engage your child's sense of wonder and discovery, and nourish the parent-child bond.

Dr. Cindy Bunin, the Director of Cambridge School and Founder of Mommy and Me™, a marriage and family therapist, child development specialist, educator and mom, has worked closely with thousands of families, couples, children and teens over the past thirty years. She will be enhancing the classes by spending special time sharing her expertise with parents helping them through these important stages of parenthood.
